ABOUT US — ELECTRONICS SUPPLY CO., INC.

We are a certified woman owned, small business located in Kansas City, Missouri at 4100 Main Street. We are the largest stocking distributor of electronics components, tools, test equipment, wire/cable, and local area network products in the four state area. As the electronics industry moved forward, so did Electronics Supply. In 1989 a new, larger facility was built to accommodate our growing inventory. Our primary business is datacom/networking supplies, test equipment, cable, tools, power backup/cooling systems, and security equipment.

We have two BICSI certified RCDD's on staff that can provide you with design assistance for fiber and copper network systems, surveillance systems, as well as sound systems. In addition, we can do custom kitting, staged delivery, and we offer free delivery in the KC metro area. We have been in business for over 60 years. We currently have 28 employees with over 600 years collective experience in the electronics industry.

We are known for our parts and smarts. We attribute our success and longevity to customer service and large inventory. Our goal is to assist you in any way we can. Please feel free to call us and as always we appreciate your business.

Keeping You In Charge

EDGE

THE EDGE GROUP

STRENGTH IN NUMBERS

Electronics Supply Co. is a proud member & owner of The Edge Group, a national distributor group committed to offering you extensive inventory selection.

Whether we're drawing products from our large local inventory or Edge's network of more than 1120 warehouses across the U.S. & Canada, we provide the solutions you need.

HIKVISION

~~You can't~~ measure
voltage without test leads

The NEW
Fluke T6-1000
Electrical Tester

Now measure voltage the same way you measure current, without test lead contact to live voltage. FieldSense technology lets you slide the open fork over a conductor and see the voltage level!

Requires negative path to ground, provided through user in most applications. Detailed considerations for test lead may be required in some situations.

FLUKE
